

KEJUN TANG

PERSONAL DATA

Position: Research Scientist, Changsha Institute for Computing and Digital Economy, Peking University

Address: 2 Jianshan Lake Road, Yuelu, Changsha, China

Email: tangkejun@icode.pku.edu.cn

Researchgate Profile: <https://www.researchgate.net/profile/Kejun-Tang>

Homepage: <https://www.tangkejun.com>

RESEARCH INTERESTS

tensor methods, deep generative models, scientific machine learning, uncertainty quantification, scientific computing.

EDUCATION

09/2015-12/2020: Ph.D., Computational mathematics, School of Information Science and Technology, ShanghaiTech University & Chinese Academy of Sciences

02/2019-08/2019: Visiting student, Center for Computation and Technology & Department of Mathematics at Louisiana State University

09/2011-07/2015: B.S., Computational mathematics, School of Mathematics and Information Science, YanTai University

EMPLOYMENT HISTORY

February, 2023 - present: Research Scientist, Changsha Institute for Computing and Digital Economy, Peking University

February, 2021 - January, 2023: Postdoctoral research associate, Peng Cheng Laboratory

October, 2019- January, 2020. NIO, Data Scientist Intern

January, 2015- March, 2015. Kingaren, Database Engineer Intern

TEACHING ASSISTANT (TA)

- Spring 2018, ShanghaiTech: Machine Learning (graduate)
- Spring 2016, ShanghaiTech: Probability and Statistics (undergraduate)
- Fall 2015, ShanghaiTech: Linear Algebra (undergraduate)

PUBLICATIONS AND PREPRINTS

- **Kejun Tang**, Jiayu Zhai, Xiaoliang Wan and Chao Yang, Adversarial Adaptive Sampling: Unify PINN and Optimal Transport for the Approximation of PDEs, <https://arxiv.org/abs/2305.18702.pdf>, preprint, 2023.
- Yani Feng, **Kejun Tang**, Xiaoliang Wan, Qifeng Liao, Dimension-reduced KRnet maps for high-dimensional Bayesian inverse problems, <https://arxiv.org/pdf/2303.00573.pdf>, preprint, 2023.
- Pengfei Yin, Guangqiang Xiao, **Kejun Tang** and Chao Yang, AONN: An adjoint-oriented neural network method for all-at-once solutions of parametric optimal control problems, <https://arxiv.org/pdf/2302.02076.pdf>, preprint, 2023.
- **Kejun Tang**, Xiaoliang Wan and Chao Yang. DAS-PINNs: A deep adaptive sampling method for solving high-dimensional partial differential equations, Journal of Computational Physics, 476 (2023): 111868.
- Xiaoliang Wan, **Kejun Tang**. Augmented KRnet for density estimation and approximation, <https://arxiv.org/pdf/2105.12866.pdf>, preprint, 2021.
- Yani Feng*, **Kejun Tang***, Lianxing He, Pingqiang Zhou and Qifeng Liao. Tensor train random projection, Computer Modeling in Engineering and Sciences, 134(2), 1195–1218, 2022.

* Co-first Author

PATENTS

- Ke Li, Qifeng Liao, Kejun Tang. The invention discloses a distributed high-dimensional uncertainty quantization method based on a depth flow model. (NO. CN113128100A)

INVITED TALKS

- “AONN: An adjoint-oriented neural network method for all-at-once solutions of parametric optimal control problems”, CSIAM UQ, Yantai, China, May 2023.
- “DAS: A deep adaptive sampling method for solving partial differential equations”, Young Scholars Forum, National Engineering Laboratory of Big Data Analysis and Application Technology & Chongqing Big Data Research Institute, Peking University, China, March 2022.
- “Adaptive deep density approximation for Fokker-Planck equations”, Workshop of AI for computing, Shenzhen, China, July 2021.
- “Rank adaptive tensor recovery based model reduction for PDEs with high-dimensional random inputs”, invited talk of uncertainty quantification and data-driven symposium at SIAM CSE 2019, Spokane, Washington, February 2019.
- “Tensor recovery for PDEs with high-dimensional random inputs”, contributed talk at CSIAM, Chengdu, China, September 2018.

GRANTS

- China Postdoctoral Science Foundation - Adaptive physics-constrained neural networks for high-dimensional partial differential equations, 2022M711730, PI, 2022

AWARDS

- Academic scholarship, 2016-2019.
- Best TA (Teaching Assistant) of ShanghaiTech University, 2016.
- National Endeavor Fellowship, 2014
- Second Prize of The Chinese Mathematics Competitions, 2014
- Honorable Mention of Mathematical Contest In Modeling, 2014
- Excellent Student Scholarship, 2013

SKILLS

Programming: Python, Matlab, TensorFlow, PyTorch

Operating Systems: Linux, UNIX

Github: <https://github.com/MJfadeaway>
